Desert Doze

Key Benefits

Desert Doze, an all-natural, non-habit forming sleep aid and dietary supplement, is specially formulated to ensure the relief of sleeplessness while providing your body with powerful detoxifying and rejuvenating nutrients.

Designed for adults who want to improve their natural sleep cycle, Desert Doze pairs nature's hormone Melatonin, with the calming attributes of the Chamomile plant, and the powerful benefits of desert super fruit Prickly Pear Cactus to help you fall asleep easily, sleep soundly, and wake refreshed.

Key Insights

Desert Doze has shown strong consumer interest and extremely positive feedback from users.

- Highly effective | Numerous users have reported they have been able to quit using prescription sleep aids after using Desert Doze.
- Features Prickly Pear Cactus, A desert super fruit rich in phytonutrients, flavonoids, vitamins, minerals, and amino acids.
- Combines the natural hormone Melatonin with Chamomile which has been used to fight insomnia since Ancient Egypt.
- Engineered by nature to help you users fall asleep quickly and wake refreshed.
- No side effects or risk of drug dependence, tolerance, or dependence.
- No risk of rebound insomnia. As a user's body returns to its natural wake/sleep cycle, they can stop taking Desert Doze without rebound.
- Stay Asleep All Night | Desert Doze, not only helps users fall asleep, it effectively fights middle of the night insomnia (MOTN)
